

Lushingtons 2017 Tree list

Dear Valued Customer

It is a pleasure to present you with our 2017 Specimen Tree Catalogue. We bring you a selection that we hope will make a fabulous display in your garden.

PLEASE NOTE: If there are any varieties that are not on the list and that you wish to order, please phone or call in to have your order placed. We will make every effort to obtain these for you.

Photo on the cover is Acer Rubrum x Freemanii 'Jeffersred'

Acer (The Maple Tree) Maple trees are prized for their foliage throughout the growing season, especially autumn. Maples are happiest in a sheltered position with protection from the harsh afternoon sun. Nothing beats them for spring beauty and autumn colour.

Acer Caudatifolium Summer Surprise. All year round beauty. Bare winter branches glow orange red. Pink new stems with variegated leaves. Orange/red leaves in autumn. Striped bark like a snakebark maple. 5x4m

Acer Japonicum 'Vitifolium' An excellent Fullmoon Maple selection with broad, lobed leaves with serrated margins. Brilliant reddish-orange autumn colour is among the best of all colouring trees. H5x5m

Acer Negundo Flamingo A very pretty and showy spring tree. Vivid carmine pink and white leaves emerge in spring and gradually change to white and green. The pink tones reappear in autumn. Quite vigorous and fast growing however will perform best protected from strong wind. Deciduous. Est.10yr.growth.

Acer Negundo 'Kelly's Gold' Yellow branchlets and soft lime green to golden-yellow leaves intensifying in autumn.5x5m

Acer Negundo Violacem- A tough box elder with purplish branches and young foliage. Attractive burgundy-pink inflorescences on the bare branches in winter are also a feature. An interesting shade tree Height 6x4m

Acer Rubrum x Freemanii Autumn Blaze Is used extensively in street-scapes, gaining in popularity here in N.Z. This tree responds well to trimming is an impressive deciduous shelter belt if required. Height 6x8m

Acer Rubrum x Freemanii 'Jeffersred' Medium tree commonly known for brilliant autumn foliage colour. Leaves turn bright red in autumn providing a beautiful contrast to other green plants. Traditional maple shaped leaves. Plant in full sun. Tolerant of most soils and conditions 15x5m

Acer Rubrum 'Brandywine' Is known for its reliably and intense autumn colours of red and purple. The bright and distinctive colours of the leaves stay for a long time, making this an ideal lawn specimen. H10x12

Acer Rubrum Autumn Glory. This North American Maple has interesting red tassel flowers in spring followed by winged seeds. The new foliage is large, lobed, lustrous green and in autumn turns a brilliant red. Forms a very handsome specimen tree. Plant in a sheltered position in sun or part shade. 10x5m

Acer Rubrum Columnare A truly spectacular specimen tree with excellent long-lasting autumn foliage colour. A relatively fast growing, upright, deciduous specimen tree, the leaves turn from lime green to bright crimson red. Needs protection from strong prevailing winds.

Japanese maples (Acer Palmatum) are small, deciduous trees grown for their graceful habit, autumn colour and beautiful foliage which may be coloured or deeply dissected

Acer Palmatum 'Beni hime' bright red in spring, older leaves turn dark green the new growth on the tips tends to stay bright red, one of the best small acers. Autumn color is especially nice for a dwarf H.5x.5m

Acer Palmatum-Bloodgood- One of the most popular. Its leaves in summer are a reddish-purple. Autumn foliage leaves become a striking crimson. Height: 4m x 3m

Acer Palmatum Butterfly Silvery white margined green leaves cover the densely held branches and become scarlet magenta in fall. New spring growth is pink tinged. Height2x2m

Acer Palmatum Chishio A slow growing small Maple suitable for town gardens or a special container. Flame pink leaves burst forth in spring gradually turning a more subdued green. The vivid pink red tones return in autumn. Very attractive and desirable. Protect from strong winds. Deciduous. Est.10yr.growth

Acer Palmatum Fireglow- An impressive, vigorous, reliable tree that burns fire-red

Acer Palmatum Burgundy Lace A great Maple for those that love deep wine foliage. The attractive dissected leaves remain a gorgeous shade of red all year round intensifying in the autumn. Height 3x2.5

Acer Palmatum Goshiki Kotohime A unique dwarf Acer with small crinkled leaves. In spring lightly variegated rose pink leaves emerge. The colour of the foliage changes to green in summer and yellow and orange in autumn. 1.5x1m

Acer Palmatum Katsura - The dainty, new spring leaves emerge pale yellow with hints of orange and red before slowly turning green over summer. Yellow and orange tones in autumn Height: 2.5m x 2m.

Acer Palmatum Mikawa Yatsubusa-. The new leaves emerge a light green maturing to fresh bright green. A lovely maple for smaller gardens or containers. Height: 1.5m x 1m

Acer Palmatum Oregon Sunset

Acer Palmatum Osakazuki – One of our best for autumn colour. Bronze foliage in summer turning intense crimson in autumn Height: 3 x 2m.

Acer Palmatum Red Emperor our favourite upright maple large, glossy, leaves of intensely deep, wine- red colouring that turn to vivid orange, yellow, and scarlet tones in autumn Height 4x3m

Acer Palmatum Roseo-Marginatum. Green leaves with white margins over summer are edged with vibrant pink in spring. Vivid rose tints in autumn. Smaller growing cultivar. Height 3x5m

Acer Palmatum Scolopendrifolium Easily grown in moist, organically rich, well-drained soils in full sun to part shade. Performs well in bright, sun-dappled, part shade locations. Avoid hot and dry sites

Acer Palmatum Seiryu Lace leafed Maple- An upright tree with finely dissected green foliage. Autumn colours are soft yellow to gold with orange red tints Height 3x2.5m

Acer Plamatum- Senkaki Fiery coral red branches stand out in winter when the tree is bare. Green foliage turns golden yellow in autumn. Great feature tree well worth a place in any garden: 3 x 2.5m

Acer Palmatum Shaina Compact bushy habit with foliage of rich reddish-purple, turning scarlet in Autumn. Small growing Height 1.5m

Acer Palmatum Shin Deshojo A very popular maple and deservedly so. Outstanding brilliant red and shrimp pink spring foliage that slowly turns green. Autumn leaves are shades of red. Height: 2m x 3m

Acer Palmatum ' Shishigashira One of the statelier green upright maples. Curled green leaves give an interesting texture to this compact tree, become purple-red with orange-red patterns in Autumn. Height3x3m

Acer Palmatum Shiraz- Unusual with multi-toned variegated foliage. New leaves are a striking crimson pink, as they mature turn to olive green/silver. Excellent fiery red tones in autumn. Height 4m

Acer Skeeters Broom Distinct and attractive, slender upright, with small, neat leaves, bright red in spring, becoming deep purple-red through summer and finally turning bright ruby-red in autumn Height 2m

Acer Palmatum Dissectum Crimson King -Weeping - Finely cut, large leaves of bright, crimson-red become a deep purple-red, before assuming fiery autumn tones of scarlet, red, and orange. Strong growing.

Acer Palmatum Dissectum Crimson Queen- Weeping, fine-leaved Japanese maple. Deep red-purple summer foliage, changing to scarlet in autumn.

Acer Palmatum Dissectum Green Mist This is a green leaf dissectum with a crimson hue over the green. The leaf is very deeply cut and turning deep red in Autumn.

Acer Palmatum Dissectum Orangeola- Weeping Orange tones in spring, turning purple then green-bronze and finally bright orange and scarlet in the autumn. The branches are quite pendulous Height: 2.5

Acer Palmatum Dissectum Stella Rose Bright red young growth in spring changing to dark purple in summer and bright red tones in autumn.

Acer Palmatum Dissectum Tamukeyama- Weeping Outstanding foliage. New foliage is a deep crimson-red when unfolding turns to a dark-purple red. Dark red all summer. Autumn colour is scarlet H2x2m

Acer Saccharum Sugar Maple broadly columnar tree. Needs fertile soils and long, cold, moist winters. Very spectacular orange autumn colour. Height 15x7m

Aesculus (Horse Chestnut)- Have large compound leaves and massed displays of upright candle like flowers in shades of cream, pink or red in summer, Deciduous.

Aesculus hippocastanum An attractive street tree with showy spires of white flowers and distinctive, palmate (hand-shaped) shiny, green, compound leaves. Height 36m

Amelanchier (Shad Bush) (Juneberry) Grown for its striking spring and autumn foliage and its spring flowers.

Amelanchier Canadensis Good for a smaller garden, this handsome compact tree or large shrub puts on shows of blossom, fruit and autumn leaf colour. Delicate white blooms decorate the branches in early spring, followed later by purple fruits. Autumn sees, dark green leaves turning vivid shades of gold H4x3m

Albizia (Silk Tree) -Grown for their filigree foliage and attractive flower heads of small florets with long stamens

Albizzia Julibrissin Red Silk Tree- If you want to sit under soft ferny foliage and look up at fuzzy fluffy carmine red flowers. Very pretty specimen, good shade canopy. Flowers summer. Quick growing. 5x4m

Albizzia Julibrissin Rosea- Pink Silk Tree- A perfect shade/screen tree for home garden. Decorative rich green ferny foliage which folds up at night. Carmine-red silky flowers appear Height 5x4m

Albizzia Julibrissin Summer Chocolate Gorgeous dainty leaflets of warm chocolate brown appear from spring and remain this colour tone until leaf fall. In summer tufts of fragrant pink flowers sit above the foliage. Quickly forms a nice filtered shade canopy. Likes the sun and well drained soil. H 5x4m

Alnus- (Alders) Grow in almost any soil and are useful for damp sites. Ideal shade tree great for moist lawns.

Alnus- Cordata Italian Alder- A splendid medium to large conical tree, very hardy. Stands a wide range of conditions. Bright green glistening foliage. Height 10x5

Betula (Birch) Grown for their Beautiful Bark, colourful autumn foliage, likes most soils damp & dry

Betula Pendula - 'Silver Birch' is popular for a reason - it's an easy to grow, great looking deciduous tree. Smooth grey-white bark and delicate, green lacy foliage on arching branches. Looks great planted in groups H8m

Betula Utilis Jacquemontii – Sweet birch- Attractive bright white bark, dark green leaves which turn yellow in autumn and interesting catkins in spring. Height: 7mx3m

Betula Utilis White Spire – Himalyan Birch. A selected form of this special tree that has a glistening white trunk of peeling bark. The dark green foliage has serrated edges and turns warm yellow in autumn. 'White Spire' tends to have a very upright columnar habit 8x4m

Carpinus (Hornbeam) Hardy. Likes well drained sites, great in shady areas, drought resistant, great for hedging

Carpinus Betulus-. Ideal tree for hedging or pleaching. Attractive oval green ribbed foliage that has good autumn tones before turning brown. Height: 15m x 10m

Carpinus Betulus Fastigiata - Upright Hornbeam- A tall, broadly conical tree. Dark green leaves through summer, turning attractive yellow in autumn. Hardy tree, useful for lawns. Height 12x5m

Cercidiphyllum (Katsure Tree)

Cercidiphyllum Japonicum Pendulum - One for the connoisseur. A delightful pendulous tree with fresh green foliage that turns smoky pink then butter yellow. Sweet spicy fragrance Branches cascade to the ground

Cedrela - (Chinese Toon Tree)

spectacular tree in spring when the new foliage is pale pink. The foliage slowly turns cream then deep green. An upright, narrow habit growing to approx 8M

Cercis (Judas Tree) Brilliant show of masses; flowers during spring. Great as a single specimen

Cercis Ace of Hearts Compact growing tree with dense dome-shaped top. Has heart shaped leaves and violet sweet pea like blossoms in early Spring. Once established tree is drought tolerant. Plant in moist, but well drained soil, in a sunny/part shaded spot.

Cercis Avondale-. The bare branches are smothered in clusters of bright pink blossoms in spring. Lovely heart shaped green leaves follow. Happiest in a sheltered position. Height: 2.5x2m

Cercis Forest Pansy- An attractive small tree. In spring these branches are covered in tiny, hot pink blossoms. The wow factor continues when the deep maroon foliage appears. Height: 3m x 3m

Cercis Hearts of Gold- Heart shaped golden foliage. New leaves emerge red in spring and turn gold; those that are shaded have more of a green tone. Lavender flowers in spring Height: 5m x 6m

Cercis 'Merlot' Selected for its attractive shiny purple leaves and semi-upright growth habit. Leaves are smaller and thicker than those of 'Forest Pansy' and maintain their attractive appearance longer into the summer. Height 3.5x4.5m

Cercis Oklahoma-A small tree that even looks good bare. In early spring the branches are covered in a stunning display of tiny bright cerise flowers. Glossy rich green summer foliage. Height 3x2.5m

Cercis Ruby Falls Outstanding dark glossy dark purple foliage. Heat resistant, strong bright pink flowers in spring. The pendula format which makes such an architectural statement either in the garden or a patio container. Height 2x2.5m

Cercis Spring Snow White flowered Chinese redbud. Rich green heart shaped leaves with masses of white blossom clothing stems in Spring. Compact habit reaching 3m in 10 years.

Cercis canadensis Texas White- An interesting tree with graceful tiered branches. In spring these are smothered in clusters of tiny white blossom. Glossy green, heart shaped leaves follow. Height: 5mx4m

Cornus (Dog Wood) *Cornus florida* originates from America. *Cornus kousa* which hails from Japan. All Dogwoods are deciduous and frost hardy with the exception of *Cornus capitata* which is semi evergreen and only tolerates light frost.

Cornus alternifolia 'Argentea' pagoda dogwood. Small tree or large multi-stemmed shrub that typically grows distinctive horizontal branching. shrubby cultivar and features attractive variegated foliage. H 3x4m

Cornus hybrid Eddies White Wonder- Extremely popular. A reliable performer in most climates. Large showy white bracts appear in spring. Stunning scarlet and orange foliage in autumn. Height: 5m

Cornus alba 'Sibirica Variegata' (Red-barked dogwood) - Produce dark stems in winter. It also forms variegated foliage which turn red in autumn, small, flat, cream flower heads; and bluish-white berries. 2.5m

Cornus Capitata - Himalayan Strawberry Tree Larger growing evergreen. Medium round-headed tree with horizontal branches. Creamy white flowers, orange scarlet edible fruit in autumn. Height 8x7m

Cornus Controversa - Giant Dogwood Magnificent with alternate leaves on sweeping layered branches. Cream coloured flowers, small black fruits. In autumn, foliage turns to rich purple-red. Height 4x4m

Cornus Controversa 'Variegata' Wedding Cake Tree. Known as the wedding cake tree because of the tiers of horizontal branches covered in clusters of tiny white flowers. Foliage edged in cream. Height 3x2m

Cornus Controversa Gold Wedding Tree It will stabilize quickly into a layered tree. Foliage golden and creamy. Autumn foliage takes on pink tones. Height 5x4m

Cornus Florida Andrea Hart- In spring the bare branches are decorated by pink bracts that surround the tiny flower. Fresh green summer foliage has attractive autumn tones prior to leaf fall. Height: 3m x 2.5m

Cornus Florida Cherokee Chief' Ovate leaves and red and purple autumn colour. Flower-heads to 10cm in width, with four notched, deep rose-red bracts in late spring Height 4-8m

Cornus Florida Cherokee Daybreak - Interesting variegated foliage. The fresh green leaves are attractively margined with creamy white /pink. Flowers showy and white. Excellent autumn colour. Height: 3.5m

Cornus Florida Cherokee Princess- Creamy white flower bracts are produced in abundance over spring. Autumn foliage turns to shades of orange, apricot, and red. Worthy of a place in any garden. Height: 4mx3m

Cornus Florida Cherokee Sunset- Very colourful. New green foliage brightly variegated with creamy-yellow and pink margins turning to pink, red, and purple in autumn. Pinkish-red flowers. Height 3x2.5m

Cornus Florida 'Cloud 9'- Pure white, large, rounded bracts and central green flower clusters at an early age appear in spring followed by red strawberry fruits that birds love. Good autumn colour Height 4x3m

Cornus Greenvale Upright small tree with large green-tinged cream flowers which adorn the tree for many weeks in late spring/summer, followed by bird attracting strawberry like fruits. Prefers good drainage and a warm sunny site. Evergreen, although semi-deciduous with red autumn colour in cold climates.

Cornus Gold Star Horizontal branches grow in tiers. Beautiful leaves are pointy and deep green with a bold gold central stripe. Profusion of creamy white flowers in spring. Magnificent pink berries are borne through summer. Vivid brick red autumn leaves.

Cornus Florida 'Purple Glory'- Showy floral bracts of deep, rose red and foliage that matures to a rich purple, taking on crimson tones in autumn. Upright, bushy form. Deciduous. Height 4 m

Cornus Florida Rainbow- A showy 'Dogwood' with colourful spring/ summer foliage, soft yellow with splashes of green. A rainbow of foliage colours in autumn. Lovely white flowers in spring! Height: 2.5mx2 S/O

Cornus Florida Spring Song- Large rosy pink flower adding softness and colour to the spring garden. Vibrant autumn tones prior to leaf fall. Happiest in a sunny position in nice rich soil. Height: 4m x 3m

Cornus Florida 'Stokes Pink' A vigorous, upright, bushy tree with ascending branches. Floral bracts are a clear pink, produced in profusion in spring. Height 5-10m

Cornus Kousa Ben Fuji- The Asian Dogwood, Multi-stemmed habit rather than a single trunk. The leaves are dark green in spring and summer with good autumn tones before fall. Height: 5m x 3m

Cornus Kousa Bonfire- Large multi-stemmed shrub has variegated foliage in various shades of green & white. The leaves are off-set by the purple shading. Large white flower. Likes nice rich soil. Height: 5 x 3m

Cornus Kousa China Girl Japanese Dogwood- Very pretty with showy white flower which appear on the horizontal layered branches. Flowers are followed by small red fruits. Very pretty. Height: 5mx3m

Cornus kousa 'Gold Star' Chinese Dogwood. this dogwood has a dark green leaf with a prominent gold splash in the center. Makes a handsome focal point. Creamy white flowers.

Cornus Kousa MilkyWay Handsome cultivar which is similar to 'China Girl' with masses of milky-white floral bracts which smother the foliage more vigorous, upright habit, lush green leaves which take on deep red and crimson tints in a good autumn. An attractive, ornamental shrub suitable for most gardens H8m

Cornus Kousa National Creamy white star shaped bracts smother this large shrub over late spring/summer dark green foliage. Pinkish red strawberry like fruit, stunning autumn foliage. Height: 5mx4m

Cornus Kousa Satomi- Salmon red star-like flowers from early summer for long period. Rich red purple autumn foliage. Very hardy. Height 3x2m

Cornus Kousa Southern Cross- Japanese Dogwood. Creamy white flowers appear over summer. Fresh green summer foliage that turns vibrant red for autumn and holds on the tree. Height: 4x3m

Cornus Weeping Elizabeth Lustgarten Outstanding weeping dogwood. Graceful form. Green foliage and white flowers. The tree naturally forms a graceful rounded crown. Train to desired height.

Cornus Pendula An attractive and unusual small weeping 'Dogwood' which would look lovely in a container. The pure white flower bracts appear on graceful pendulous branches in spring. These are sometimes followed by red fruits. Plant in a sunny position in nice, rich soil for best results. Deciduous.

Crataegus (Hawthorn)- Spectacular flower displays followed by colourful crops of berries, specimen or hedges

Crataegus Pauls Scarlet Double red flowers sing out from the branches of this robust little tree, generally rounded shape. Height 6m

Crataegus Rosea Flore Pleno- Pink Hawthorn. Great masses of double, delightful, fragrant pink Red berries in the autumn. Specimen tree that can be used for shelter as it is wind tolerant. Height 3m

Davidia Involucrata (Ghost Tree) (Dove Tree) (Handkerchief tree) - A rare and unusual tree. Unusual large white bracts that surround the small flowers and drape the whole tree in spring and summer. Height 8x4m

Fagus (Beech) Slow growing but develops into a beautiful pyramidal or cone shape. Will grow in most situations. Attractive foliage from lime green to deep purple.

Fagus sylvatica 'Dawyck Green' A splendid narrowly columnar tree of dense habit. Green foliage 7m

Fagus sylvatica 'Dawyck Gold' A dense columnar tree with beautiful bright yellow young foliage in spring, pale yellow green in summer Height 7x2m

Fagus sylvatica 'Dawyck Purple' A splendid narrow columnar tree of dense habit. Deep purple foliage 7m **S/O**

Fagus sylvatica 'Purpurea' – Copper Beech-Purple Beech Leaves round-oval, pointed reddish when first opened, turning rich, deep purple. Tree matures to a dense pyramid. Height 10x8m

Fagus sylvatica 'Purpurea Pendula'
Amazing weeping form creating a mushroom shaped dome. Foliage is deep purple in spring, turning to bronzy-green later in summer. Slow growth and smaller size allows its use in most landscapes

Fagus sylvatica – English Beech. Stately tree. Bold fan shaped branches. Smooth grey bark soft, dark green glossy leaves which turn reddish brown in autumn. Can be grown as a hedge or 'pleached'. Height 10x8m

Fraxinus (Ash) Hardy fast growing, thrives in any soil. Will tolerate windy conditions. Deciduous

Raywood Fraxinus Raywoodii- A deservedly popular and beautiful deciduous tree. Elegant branch framework, neat pyramidal habit and handsome long narrow foliage. Easy to grow and tolerant. Height: 10 x 8m

Aurea Pendula Weeping Golden Ash 180cm STD- Medium sized weeping tree, forming an umbrella shaped crown, young growth golden yellow. Lovely lawn specimen for smaller gardens. Hardy

Ginkgo (Maidenhair) Recognised by their fan shaped leaves that turn a beautiful yellow in Autumn

Ginkgo Autumn Gold- The bright green fans of fern like foliage turn a deep golden yellow in autumn and hold well on the tree until they drop cleanly to the ground. Height 7m x 4m

Ginkgo Biloba Saratoga- This form has deep green, deeply notched fans of fern-like foliage. Graceful pendulous habit. Beautiful golden tones in autumn. An outstanding specimen tree. Height: 5m x 3m

Ginkgo Biloba Jade Butterflies- Semi-dwarf. Compact habit. Small, pyramidal-shaped tree with darker, jade-green foliage; creamy-yellow tones in autumn

Ginkgo Biloba Little Weeper. A rare weeping tree. Grows into a medium sized shrub or small weeping tree. The branches grow upwards before arching and allowing the outer branches to cascade on the ground. Soft green leaves in spring turn golden yellow in autumn **S/O**

Ginkgo Pendula Unusual form of weeping Ginkgo. The branches grow horizontally and droop when long enough. It has a bushy habit. Very attractive specimen tree **S/O**

Gleditsia (Honey Locust) Fast growing specimen trees. All varieties are hardy and will grow in any situation. The foliage on all varieties is light and airy and creates dappled shade.

Gleditsia Emerald Cascade. A very popular weeping form of the popular honey locust. Attractive frond like leaves which are tolerant of wind and industrial atmosphere 2x2m

Gleditsia Limelight Selected form with limey-green to pale yellow foliage that holds its subtle toning for months. Ideal choice for gardeners wanting cooler colours in the heat of the summer. Height 6m

Gleditsia Ruby Lace – A selected form with purplish young and greenish purple foliage through summer. Stands dry full sun. Height 6x5m

Gleditsia Sunburst -. Quick growing & attractive tree with dainty fern-like foliage. Bright lime yellow turning to a softer green turning vibrant gold before leaf fall. Graceful pendulous Height: 6m

Gleditsia Skyline- Upright narrow crown with bright green foliage. Height 8m

Koelreuteria (Golden Rain or Pride of India)

Paniculata- A broad headed tree with pinnate foliage which colours beautifully in autumn. Large panicles of small yellow flowers in summer. Height 10m

Kolkwitzia

Kolkwitzia Amabilis Pink Cloud Forms a dense multibranched shrub with its top stems gracefully arching. In November it is completely draped with masses of pale bells. Prune after each flowering. 4x3m

Laburnum (Golden Chain Tree)

Watereri Vossi- Glossy green foliage set off with 60cm long racemes of fragrant golden yellow flowers in late spring. Very showy and well worth giving a special place in the garden. Height: 3m x 2

Liquidambar (Sweet Gum) Handsome tree with maple like foliage. Superb autumn colour

Liquidambar styraciflua – Sweetgum Upright, pyramidal-formed tree with outer branches gracefully drooping, finely cut and lobed leaves similar to a maple. Autumn shades of pale orange and apricot then becoming purple. Reliable autumn colour. Hardy Height 13x5m

Liquidambar styraciflua 'Burgundy'- A narrow pyramidal form of liquidambar. Large lobed green leaves turn deep burgundy red in autumn and hold well until leaf drop. Height 7x5m

Liquidambar styraciflua 'Golden Treasure' Variegated gold and green leaf through summer with good autumn tints. Moist soil. Hardy. (H4m)

Liquidambar Gumball STD - 1.2-1.5-1.7. A unique form with a dense, rounded habit. The fresh green summer foliage puts on a vibrant autumn display in tones of red and purple holding well into winter. Grafted onto a standard that forms a characterful 'corky' trunk.

Liquidambar styraciflua 'Lane Roberts' Stately pyramidal form. Hardy, enjoys moist conditions and some wind protection. Autumn colours of rich black crimson-red. Perfect specimen. Height 8x5m

Liquidambar Little Richard Dwarf A stunning new dwarf selection of Liquidambar. With a narrow upright tree form. Little Richard turns to stunning autumn colours which hold well on the tree. The perfect tree for small gardens and containers H3m

Liquidambar styraciflua 'Worplesdon' Broad-crowned medium-sized deciduous tree with five-lobed, maple-like leaves which turn to deep orange and yellow in autumn height 12x8m

Liriodendron (Tulip Tree) - A close relative of the Magnolia and likes the same type of deep acid soil.

Liriodendron Tulipifera- An attractive tall upright tree that has distinctive lobed leaves. In the spring it flowers with unusual tulip shaped blooms. An excellent paddock tree with yellow autumn foliage. Height 15x10m

Liriodendron Snowbird- (Variegated Tulip Tree)-A magnificent tree. Rapid growth, straight, tall with pyramidal crown. It has a yellow greenish flower which takes up to 5 years of growth to flower. H 15x10m

Magnolia Most magnificent flowering tree. Loves acid soil and most are deciduous

Magnolia Black Tulip- Large cup shaped blooms of an exceptionally dark ruby-red. Generous with bloom from a young age and a vigorous grower. Plant in a sunny sheltered position in acid soil. Height: 6mx4m

Magnolia Brixton Belle Large cup and saucer bright pure pink flowers with creamy inners. Flowers from the first year in tremendous abundance. A neat spreading tree, suited to the smaller garden. Mid-season flowering

Magnolia Burgundy Star-. The deep, burgundy wine flowers have a generous quantity of long narrow petals in a most attractive 'star' arrangement. Height: 5m x 1.5m

Magnolia Butterflies- Soft yellow fragrant blooms which are like giant butterflies. Flowers late winter until early spring. Will grow in full sun or part shade and will perform well in shelter. Height: 6m x 3.5m

Magnolia Cleopatra - With large, sumptuous, cupped blooms of rich cerise purple Cleopatra is certainly a beauty to behold Height 4x3m

Magnolia D.D. Blanchard Southern Magnolia- A magnificent evergreen tree with large, glossy dark green leaves Open-branched pyramidal makes an excellent shade tree. Huge cup-shaped flowers. H.10m

Magnolia 'David Clulow'- large, simple, ovate or elliptic leaves and white cup-shaped flowers to 20cm wide in late spring. Flushed with pale pink at the base. Height 4-8m

Magnolia Denudata Small rounded tree that gets covered in pure white fragrant blossoms in winter. H. 5m

Magnolia Denudata Gere Large white flowers perfect in form are completely unmarred by the presence of any other colour. Unusually late flowering for denudate. Intensely fragrant.

Magnolia Felix Jury- Enormous superb flowers open red and turn rosy pink. A spectacular sight in early spring when the compact tree will be covered in hundreds of blooms. Highly fragrant. Height 5x3m

Magnolia Genie- If you have wished for an easy to grow, beautiful, small tree for your garden then let 'Genie' work her magic. Deep wine, fragrant, globular blooms from a young age. Height 3x2m

Magnolia Grandaflora- Among the grandest and most beautiful evergreen flowering trees. Powerfully fragrant. Waxy white flowers turning buff with age produced through summer and autumn. Height 5x5m

Magnolia Honey Tulip A golden-honey version of M. 'Black Tulip' which flowers before the leaves appear. A brand new New Zealand hybrid which will be very popular

Magnolia Iolanthe- This stunning NZ bred tree will take your breath away when in full bloom. The large furry buds open to enormous cup-shaped flowers in shades of lavender pink and cream. Height 5m

Magnolia James Tyler A distinctive hybrid, rarely available. Huge creamy flowers have the faintest pink tinge to the base of the flower. Firm velvety flowers. Deciduous and hardy. Height 5-6m

Magnolia 'J.C'.Williams') Striking and unusual deep red colour which appears almost black from a distance. H 6m

Magnolia Leonard Messel- Rounded shape tree. It has star shaped flowers with narrow petals, white on the inside and purple-pink outside. Fragrant blossom early spring. Height 3m

Magnolia Little gem- Always looks good, tolerates just about any conditions. Creamy white blooms that are softly fragrant. Wonderful as a single specimen or as an avenue planting. Evergreen. Height 5-7m

Magnolia Old Port- Blooms are very dark wine purple with the inner surfaces off white. Cup shaped 12cm blooms have a light fruity fragrance. Multi branched Height 3-4m

Magnolia Shiraz- A broad, upright, tree that produces rich burgundy flowers in tulip shape. Height 12m

Magnolia Susan- The blooms are deep reddish violet with white interiors with the added bonus of a soft fragrance. Habit: Upright, Height: 3m x 1.5m

Magnolia 'Star Wars'- Upright spreading habit. Free flowering star shaped blooms of rose pink with white basal flush. Most spectacular flowers. Shelter from strong winds. Prefers deep moist soil Height 5x4m

Magnolia Stellata Dawn

This is another good pink coloured stellata variety with very full flowers with many petals.

Magnolia Stellata Jane Platt (Pink Star Magnolia) Rich pink flowers with many petals on a compact bush. Best of the dwarf stellata types. Height 2.5x2.5m

Magnolia Stellata Water lily- This is a lovely deciduous shrub that is quite vigorous and hardy. The silky pink buds open to reveal white shaggy star shaped flowers set against attractive bare branches. Fresh, dark green foliage follows.

Magnolia Grandiflora Teddy Bear- An evergreen magnolia with rounded and cupshaped leaves that are held tightly on the tree. This makes the tree denser in appearance. The leaves are glossy with a soft furry underside. gloriously large white flowers. H 4m

Magnolia Ula- Spectacular large blooms of rose pink. The flowers appear late in spring and have a delightful perfume. Height.5x6m

Magnolia Vulcan- The best of the best! Arguably the most stunning Magnolia bred to date. Opulent, deep magenta blooms up to 25cm across. A good sized compact tree suitable for smaller gardens. H.8-10m

Magnolia Wakehurst. Fragnant Purple flowers with pink interiors. Height 15m

Magnolia Yellow Bird This is a stunning Magnolia ideal as a feature tree. Vigorous upright pyramidal habit with cup shaped, bright canary yellow, and tulip shaped blooms that have a lime green tinge. H 5x3m

Magnolia Yulan - Goblet shaped creamy white flowers opening later into formation. Flower on bare branches in early spring. Height 6-10m

Malus-(Crab Apple). Extremely hardy, free flowering, suitable for a wide range of soils. Lovely fruit

Malus Floribunda forms a round-headed, small deciduous tree with narrow leaves on arching branches. The flowers are white or pale pink opening from crimson buds. The fruit is red and yellow. 1.5cm std

Malus Ellerslie Excellent weeper for a narrow space. The branches grow tall then arch gracefully down to the ground. Red new leaves turn bronze through summer. Small red crab Apples. Height2.5

Malus Floribunda 1.8std A delightful specimen that displays a mix of crimson-red buds with flowers opening to white with a pink flush at the same time

Malus Golden Hornet A smaller upright pyramidal tree, has bright pink–red buds early spring opening to white flowers which are followed by clusters of small golden yellow fruit lasting well into winter. An attractive small tree for winter colour. Deciduous, grows to 3 x 2m.

Malus Gorgeous A very popular variety. Small deep crimson fruits weigh down branches in autumn/winter. An excellent culinary variety. Pearly white blossom; one of the best fruiting. H2.5m

Malus Jack Humm-. The single white blossom in spring is followed by large shiny red 'apples' that stand out on the bare branches right through winter. Habit: Upright Height: 3m x 2.5m

Malus Ioensis 'Plena' - Double delicate pink blossoms in November. Slightly scented. Ideal for smaller gardens. Height 3x2m

Malus Ballerina Maypole World's most compact crab-apple. Columnar shaped tree. Ideal for containers or architectural plantings. Very hardy. Height 2.5m

Malus Ballerina Samba- A truly stunning spring display with vibrant carmine blossom and bronzy red new growth. In summer masses of very decorative, deep red crab apples make great jelly. Height: 3m

Malus Profusion- Well it's called 'Profusion' for a reason - starts to flower from a young age and puts on a 'profuse' display. The flowers are followed by small red crab apples. Height: 3m x 2.5m

Malus Tschonoskii- This hardy flowering tree has an erect habit. The bold autumn foliage is in shades of yellow, orange, purple, and scarlet. Height: 8-10m

Malus Red Jade Std- Gracefully cascading branches loaded in Autumn with small round brilliant red fruit. Masses of blush white blossom in spring. An excellent dwarf weeping tree. Budded onto stds

Malus Red Top. Highly recommended avenue tree with striking upright growth when young which spreads with age. Dark pink blooms in mid spring are followed by emerging red flushed foliage and small red fruit. Fruit is well coloured by Christmas. Height 5 x 3m

MALUS Van Eseltine – Upright Crabapple S/O

A small, columnar tree with stiffly erect branches, large, rose-pink flowers opening from rich, rose-scarlet buds in spring. Has masses of bright yellow fruit over autumn and early winter. Deciduous, grows to 3 x 1.5m.

Nyssa Grown for their attractive foliage, autumn colour. Ideal specimen tree, very effective near water

Nyssa Sylvatica- An elegant specimen tree highly rated for spectacular autumn colour and the fact that it flourishes in swampy conditions. Happy in sun or part shade. Height: 7m x 5m

Parrotia (Ironwood Tree) Tolerates alkaline soil, likes sun or partial shade

Parrotia Persica- Unusual crimson tassel-like flowers on bare branches in late winter. Lustrous dark green foliage in spring that colours well in autumn. Height: 10m

Platanus (Plane Tree) Magnificent and most popular in the world for big cities, able to survive extreme conditions

Platanus Acerifolia (London Plane) Magnificent large tree with round head, clean smooth bark and large palmate leaves 20-25 cm across. Foliage lobed. Rounded burr-like fruit hangs in clusters. Height 15m

Prunus (Weeping Flowering Cherry) The glorious range of colours & blooms are delightful. Very hardy and easy to grow

Prunus Falling Snow 1.2m 1.5m - Weeping. A beautiful and graceful small tree with pendulous arching branches. Single white blossom that is blushed with just a hint of pink.

Prunus Pendula Rosea H/W 1.2m 1.5m, 1.8- Also known as the Weeping Rosebud Cherry this delightful little tree has an arching, graceful pendulous habit. Dainty single pink blossoms. Height 3-4m

Prunus (Flowering Cherry)

Prunus Autumnalis Rosea Small tree with dainty, semi-double, blush pink flowers appearing sporadically through winter during mild spells, with a final display in spring. Good for winter floral decoration.

Prunus Felix .1.2m, 1.5m 1.8m Large, rosy red, bell shaped blooms that start to appear around August. Bred in NZ by Felix Jury and known here as the 'Tui Tree' because Tui just love the sweet nectar the flowers provide - in fact they go mad for it

Prunus Kanzan H/W 90cm, 1.2m, 1.5m 1.8m- Deservedly one of the most popular flowering cherries. Gorgeous, fully double, pink blossoms hang in pendent clusters for several weeks in spring.

Prunus Mountain Haze Masses of early small pink flowers covering this dome shaped tree in early spring. Good autumn colours. Ideal where space is limited. Height 4-5m

Prunus 'Tai Haku' - 1.5m larger growing vase to upright form double white blossom later in season

Prunus Shimidsu Sakura H/W 1.2m, 1.5,1.8- A beautiful, breath-taking tree with double pink blossoms that hang in clusters from long stalks. Excellent autumn colour. Height: 4m x 5m

Prunus Shirotae Mt Fuji H/W 1.2m, 1.5m Graceful drooping branches are smothered in large semi-double fragrant white blossoms. Height: 5m x 5m.

Prunus Ukon-1.5m 1.8m Open spreading habit. Large semi-double greenish yellow flowers occasionally flushed pink -. Brownish bronze foliage. Autumn colouring orange to purplish-brown. Height 7m

Flowering Plum. A robust and highly decorative small tree with fragrant, double pink blossom that decorates the bare branches in early spring. Height: 4m x 4m

Pyrus Ornamental Pear

Pyrus Aristocrat A beautiful ornamental pear. Showy white flowers in spring with striking yellow to red autumn foliage. Strong pyramidal growth. Hardy, high health variety. Height 6x4m

PYRUS Autumn leaves Graceful, slender smaller tree with weeping branches. Attractive shimmering leaves with excellent autumn colourings. Has red/brown pea-sized fruit. Ideal specimen tree for home gardens and also for lining driveways. Fast growing. 4 x 3m

Pyrus Calleryana A commonly planted ornamental pear featuring glossy, rounded leaves, a prolific floral display, and good autumn foliage colour. Abundant white flowers produced in corymbs from early spring. H.12X9M

Pyrus Bradford a selected, non-thorny form. It forms a vigorous, medium sized, dense headed tree flowering profusely in late spring. Attractive autumn foliage in shades of orange through scarlet red. Highly praised as an ornamental and commonly planted as a street tree. Height 6x4m

Pyrus Kea Raised in Queenstown, this selection has glossy green foliage which changes to shades of Rich burgundy and green over autumn that carries through into winter 6x4m

Pyrus Salicifolia STD 1.4, 1.7m Pendula Weeping Silver Pear- A very elegant and attractive weeping tree with silvery grey bark. Willow-like shiny leaves white at first becoming silver-green.

Quercus (Oak) Great for farm plantings. Hardy and reasonably fast growing

Quercus Cerris -Turkey Oak Fast growing, wide spreading, stately tree suitable for large gardens or farm planting. Leaves oblong and shallowly lobed turning brown in autumn. H12x6m

Quercus Coccinea - Scarlet Oak Stately. Large spreading crown. Wide, deeply lobed leaves, intense scarlet in autumn. Extremely hardy and with-stands drought once established. H5x10m

Quercus Palustris- Pin Oak. A beautiful specimen tree that is hardy, tolerant and easy to grow.H20m x10m

Quercus rubra - Red Oak. Fast growing, broad spreading branches and round topped crown. Very large leaves, rich red in spring, dull green through summer turning dark red to orange in autumn. Splendid choice H10x7m

Quercus robur - English Oak Wide, open headed tree with rugged branches needing ample space to develop naturally. Ideal for parks and farm shelter. Brown autumn foliage holding well into winter. Hardy to most conditions. 10x8 metres

Robinia (Locust) Hardy and suitable for any soil, Great in dry conditions. Beautiful pea like flowers.

Robinia pseudoacacia 'Casque Rouge'. Racemes of semi-pendulous pink-lilac pea-shaped flowers during late spring. Prune after flowering. Fast growing. Height 6x5m
