

2025 ROSE LIST

It is a pleasure to present you with our 2025 rose catalogue

We bring you a selection that we hope will make a fabulous display in your garden.

PLEASE NOTE: If there are any varieties that are not on the list and that you wish to order, please phone or call in to have your order placed. We will make every effort to obtain these for you.

All our roses are budded on high health rootstock, virus free. They are sprayed pruned and fed to our highest standard.

We only source large two-year-old budded plants to make certain they are high quality. Our roses are pre-potted into quality potting mix to ensure they are quick to establish. They are fully guaranteed however with any living thing; minimal losses may occur. Please advise us before October 1st 2025 of any concerns you may have with the roses you have purchased.

Happy gardening from all of us at Lushingtons!

Recycle your pots

We're mindful of the impact that the garden industry has on our environment, we encourage you to return your used rose pot back to us, so we can reuse or recycle it in our free pot section. Every little bit helps.

Please note catalogue prices apply only until the end of July 2025

T=Tall growing

Rose featured on cover page is 'Ali Mau'

H.T.Hybrid Tea roses are renowned for their large flowers of perfect form and many are fragrant. They make a brilliant display in the garden and are wonderful as cut flowers.

FL.Floribunda Roses have clusters of blooms in every colour of the rainbow. Through crossing with Hybrid teas, great improvements have been made in flower formation, while still retaining their vigour and freedom of blooming. They are superb border plants, giving wonderful colour and fragrance from October to June.

D.A.DAVID AUSTIN/ENGLISH ROSES For anyone unfamiliar with the term 'English Rose' this is the name David Austin gave to a new bred of roses originating in the hybridisation of Old roses from 18th and 19th centuries (the Gallicas, Damasks, Portland and Bourbon Roses) with present day roses (the hybrid teas and floribundas). English Roses have the following characteristics: they combine the form of the flower, the fragrance and general character of an Old Rose with wide range of colour and the repeat flowering- or 'remontancy'- of a modern Hybrid Tea or Floribunda Rose; they also retain much of the bushy, shrubby growth of the old varieties.

PATIO BUSH ROSE

Superb roses for container and bedding use. Ideal for massed groundcover use too. These roses are continuous flowering throughout the season
